-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

Applicant's election with traverse of Species II, claims 12-16, in the reply filed on 04-11-05, is acknowledged. The newly added claims 21-24, are part of the Species I, which has not been elected. The traversal is on the ground(s) that the searches are the same, and because of issues related to compact prosecution and public interest. This is not found persuasive because valid reasons for restriction have been stated and applicant does not address these reasons for restriction.

The requirement is still deemed proper and is therefore made FINAL.

Claim Objections

Claims 12-16 are objected to because of the following informalities:

The term "predetermined" in claim 12 is a relative term which renders the claim indefinite. The term "predetermined" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. If applicant intends a particular circumscribed on the substrate, it should be clearly recited.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Rinne et al (US 2002/0020551 A1).

Rinne et al discloses a method of forming a dam having a die, comprising the steps of circumscribing an area on a substrate 15 with a metallized trace pattern 16, applying solder 18 to the metallized trace pattern, reflowing the solder to form the dam using the solder (Figures 1-3, and Paragraphs 0037 and 0047), and forming a conformal coating about the dam (Figure 4), wherein the solder comprises the step of applying a solder paste to the metallized trace pattern (Paragraph 0049), or applying solder perform to the metallized trace pattern (Paragraph 0049).

Conclusion
